

# U.S. PRECIPITATION RANKINGS

Climate Division Data from 1895-1999 (105 years)

October to December 1999

## LEGEND

Extremely Dry (Less  
than 10th Percentile)

Dry  
(10-30 Percentile)

Near Normal  
(30-70 Percentile)

Wet  
(70-90 Percentile)

Extremely Wet  
(Greater than 90th  
Percentile)

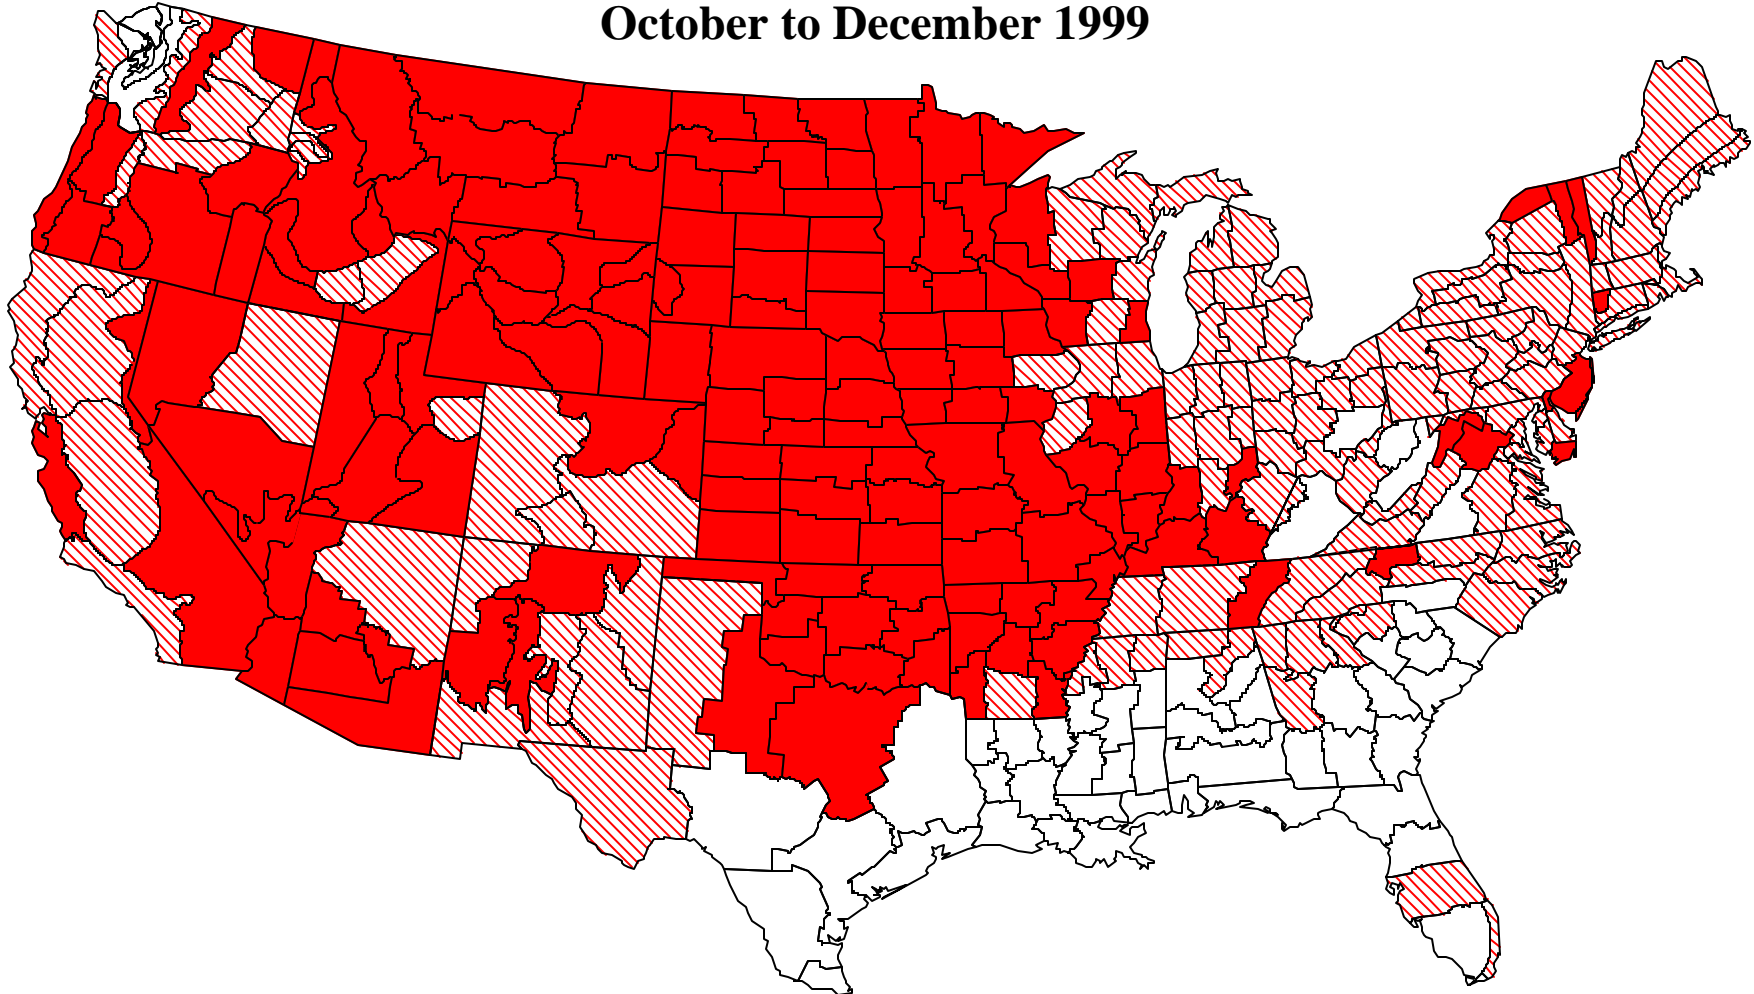

World Agricultural Outlook Board  
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center  
(NCDC) and is subject to revision.

# U.S. TEMPERATURE RANKINGS

Climate Division Data from 1895-1999 (105 years)

October to December 1999

## LEGEND

Extremely Cool (Less  
than 10th Percentile)

Cool  
(10-30 Percentile)

Near Normal  
(30-70 Percentile)

Warm  
(70-90 Percentile)

Extremely Warm  
(Greater than 90th  
Percentile)

World Agricultural Outlook Board  
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center  
(NCDC) and is subject to revision.

# U.S. PRECIPITATION RANKINGS

Climate Division Data from 1895-1999 (105 years)

January to December 1999

## LEGEND

Extremely Dry (Less than 10th Percentile)

Dry (10-30 Percentile)

Near Normal (30-70 Percentile)

Wet (70-90 Percentile)

Extremely Wet (Greater than 90th Percentile)

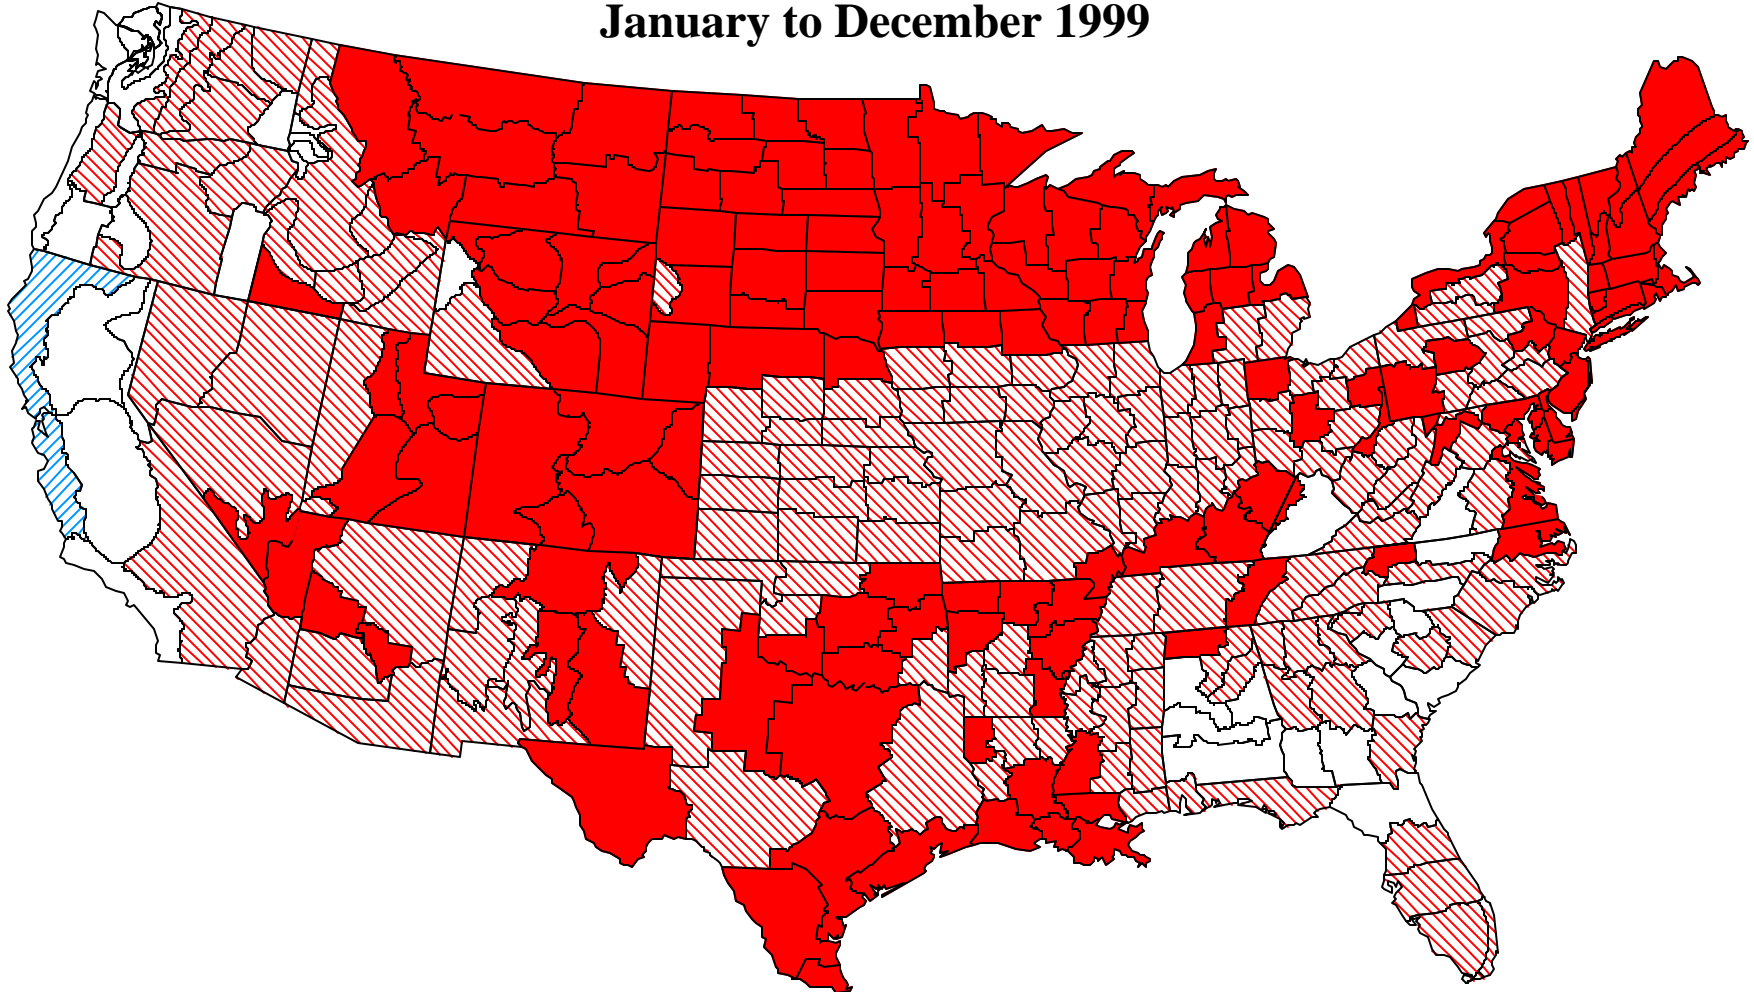

World Agricultural Outlook Board  
Joint Agricultural Weather Facility

Preliminary data provided by National Climatic Data Center (NCDC) and is subject to revision.
